Page numbers are based on NEC 2017 Edition of Ugly's.

I hand write these onto stiff Post-it tabs. They are a 1" wide tab, which has 66 tabs per package. The Item number is "686-RYB"

All tabs are installed from the back of the book going forward, this allows you to see the tab already in place. Thus enables you to place the next tab without covering the tab already in place. The number of tabs, will create three rows, with 5 tabs per row, having 1/8" space between tabs.
